## WORLD DOWN SYNDROME DAY IN WROCLAW

### **WORKSHOPS FOR STUDENTS OF MEDICINE DEPARTMENT „Find my DS child”**

There is still just a limited knowledge about Down Syndrom. That fact creates the problem when it comes to diagnosis and treatment by doctors. During that special period of time we want to run meetings with students of medicine departments and doctors telling to them about Down Syndrom and our experience.

The workshops schedule is based on the story of parents entitled: „My story”, supporting by photos and our organization activities presentation, particularly our web site: [www.stowarzyszenie-razem.org](http://www.stowarzyszenie-razem.org) as a communication system between us and doctors.

### **EXHIBITION IN THE CITY**

We build awareness by showing that we are here with our DS. children. We show us, how DS. people are, their friends in the very center of the city. Our words: “There are many countries but the only one DS”. We point out the differences when it comes to distances and culture comparing to DS which looks the same everywhere with its problems and joy. Our exhibition is going to move out to different places across the city up to the end of April.

If you want to look how it works last year look here:

Our action was called *WROCLAWIANIE* (people who lives in the city of Wrocław)

This year our action will be supported by our WROCLAW trams, which will have got our poster campaign.

### **WEB SITE PERFORMANCE „Let show us, we are here”**

„I am proud of my son”, let be proud of our DS children. We discover what we have the best in the World Down Syndrom Day, our children. We want our city, our country to understand and to accept our DS. children. Let show us, we are here means that we show our DS children pictures on our home page web site and we invite to us all people from our city and our country. We will send our presence to everybody because we are here.
